

”

”

Even in times of crisis, the following applies: Change always harbors business opportunities. And paves the way for progress and competitive advantages.

Detlef Braun

Member of the Executive Board

Messe Frankfurt

” Collaboration is key to foster transformative sector engagement and to accelerate the implementation of the Sustainable Development Goals. Mobilizing expertise, innovation, technology and resources can only be achieved through strong partnerships. ”

Lucie Brigham

Chief of Office of the UN Office for Partnerships
Conscious Fashion and Lifestyle Network

TRIPLE PLANETARY EMERGENCY

By 2040 a circular economy can:

- Reduce the annual volume of plastics entering our oceans by 80%
- Reduce greenhouse gas emissions by 25%
- Generate savings of USD 200 bn per year
- Create 700,000 net additional jobs

PARTNERSHIPS

PARTNERSHIPS FOR THE SDG

- UN Conscious Fashion and Lifestyle Network
- Fashion Industry Charter for Climate Action
- Global Compact
- Race to Zero campaign
- Act Now Campaign
- Better Work Programme

”As a condensate, trade fairs make these diverse developments visible bundled on a global business platform - and at the same time make a decisive contribution to understanding sustainability holistically and being able to redefine supply chains holistically.”

Olaf Schmidt

Vice President Textiles & Textile Technologies
Messe Frankfurt

”

”

Mechanical engineering and technology providers are the enablers for solutions to today's biggest challenges: Sustainability, flexibility, and regionalization.

Elgar Straub

Managing Director

Textile Care, Fabric and Leather Technologies,

VDMA

”

”

Emerging technologies are leading the textile industry into a new era, changing the way we create, communicate and consume products, redefining design processes as well as the deployment and tracking of resources along the textile value chain.

Matthew Drinkwater

Consultant, Tech-Fashion Expert
